#wingstofly

What is wrong with my child?

What's going to happen to my child when I am not around?

Will my child be independent?

The mission of Communicare is to be the pivot for Inclusive Education of children with special needs. We aim at integration of these children into regular schools by providing intensive pre-school intervention using global best practices.

## Specialised School Readiness Program

*(For Ages 2 years - 7 years)*

School Readiness Program for our young ones to be ready to integrate into mainstream education and prepare them for higher challenges

## Skill Development Program

*(For Ages 8 years upwards)*

Individualized Programs providing intensive stimulation & training with a multisensory approach. Consistent training through a child led yet very specific goal oriented robust program is our forte

## Movement Based Program

*(For All Ages)*

We emphasize in Mind Body Awareness and work with kids with special needs and disabilities. We use international best practices for effective outcomes in development of their personalities

## Family Intervention

*(For All Ages)*

It's not easy and you are not alone. Family Intervention is one of our strongest way in Communicare. We work as a family and provide our extensive support to the families of our kids

## OUR PARTNERS

Adapted Spiral Praxis, Canada
